

Farhan Fareed

React Native Developer | Mobile Application Engineer | Python & FastAPI (Backend)

Rawalpindi, Pakistan | Mobile: +92 312 5642025 | Email: farhan.officials96@gmail.com
LinkedIn: farhan-fareed-a1947a137 | GitHub: farhan-96 | Portfolio: farhan-2355-dev-portfolio

PROFESSIONAL SUMMARY

Results-driven React Native Developer with 3+ years of experience designing, developing, and deploying high-performance cross-platform mobile applications for Android and iOS using React Native CLI, Expo, and TypeScript. Experienced in building scalable applications with Redux Toolkit, Firebase, Node.js, and RESTful APIs.

Strong expertise in mobile architecture, third-party integrations, push notifications, authentication, performance optimization, and publishing production applications to the Apple App Store and Google Play Store. Experienced in implementing AI-powered features using OpenAI and Google Gemini APIs.

Also building backend development skills in Python and FastAPI, including designing and building a personal REST API project for an e-commerce use case with MongoDB, and is now looking to apply this experience in a Junior Python / Backend Developer capacity alongside continued mobile development work.

Proficient in modern development workflows including GitHub Actions, CI/CD Automation, Expo EAS Build & Submit, and AI-assisted software development using Cursor AI and ChatGPT Pro to accelerate development, improve code quality, and streamline debugging. Passionate about building scalable, user-centric applications while following clean architecture, best coding practices, and Agile development methodologies.

Core Technologies: React Native, Expo, TypeScript, Redux Toolkit, Firebase, Node.js, Express.js, MongoDB, GitHub Actions, CI/CD, Expo EAS, REST APIs, GraphQL, OpenAI, Gemini, RevenueCat, Python, FastAPI

PROFESSIONAL EXPERIENCE

Senior React Native Developer

Jan 2025 – Present

Tovo Solution | Full-Time

- Develop and maintain cross-platform mobile applications using React Native, Expo, TypeScript, and JavaScript for Android and iOS.
- Integrate REST APIs and third-party services to deliver scalable, production-ready mobile features.
- Build backend services and RESTful APIs using Node.js, Express.js, and MongoDB.
- Implement AI-powered application features using OpenAI and Google Gemini APIs.
- Manage application data and cloud services using Firebase Firestore, Realtime Database, and Cloud Storage.
- Design and maintain GitHub Actions workflows for CI/CD automation, streamlining development, build, and deployment processes.
- Manage Expo EAS Build and deployment workflows for Android and iOS applications.
- Publish and maintain production applications on Apple App Store and Google Play Store.
- Troubleshoot platform-specific Android and iOS issues and optimize application stability and performance.
- Use Cursor AI and ChatGPT Pro for AI-assisted development, debugging, refactoring, documentation, and development productivity.

Senior React Native Developer

Oct 2024 – Present

The Revolution Technologies Pvt Ltd. | Part-Time

- Develop and maintain cross-platform mobile applications using React Native and TypeScript.
- Translate Figma designs into responsive and pixel-accurate mobile interfaces.
- Integrate third-party APIs, Stripe webhooks, payment functionality, and push notification systems.
- Develop backend infrastructure using Node.js, Express.js, and MongoDB.
- Deploy backend services to AWS using Lambda functions and Docker containers.
- Perform code reviews, troubleshoot application issues, and collaborate with cross-functional teams to improve code quality.

React Native Developer

Jan 2022 – Dec 2024

- Developed and maintained cross-platform React Native applications for Android and iOS using TypeScript.
- Integrated REST APIs and implemented application data management using Firebase services.
- Built and deployed backend services to support mobile application functionality.
- Published and maintained production applications on Apple App Store and Google Play Store.
- Performed App Store Optimization (ASO) and supported production release processes.
- Collaborated with team members to troubleshoot issues, deliver features, and meet project deadlines.

TECHNICAL SKILLS

Mobile Development: React Native, React Native CLI, Expo, Expo Router, TypeScript, JavaScript (ES6+), Android, iOS

Frontend: React.js, Next.js, HTML5, CSS3, Responsive UI Development

State Management: Redux, Redux Toolkit, Redux Saga, Context API, React Hooks, React Query

Backend Development: Node.js, Express.js, REST APIs, MongoDB, MySQL, Python, FastAPI

Firebase & Cloud: Firebase Authentication, Firestore, Realtime Database, Cloud Storage, Firebase Cloud Messaging (FCM)

AI Integration: OpenAI API, Google Gemini API, AI Chatbots, Prompt Engineering, AI-powered Mobile Features

Mobile Features: Push Notifications, Deep Linking, Google Sign-In, Health Connect (Android), Apple HealthKit, App Store Deployment, Google Play Deployment

DevOps & CI/CD: Git, GitHub, GitLab, GitHub Actions, CI/CD Automation, Expo EAS Build, Expo EAS Submit

Developer Productivity: Cursor AI, ChatGPT Pro, Postman, Android Studio, Xcode, VS Code, Figma

Methodologies: Agile Development, Scrum, Code Review, Debugging, Performance Optimization, Clean Architecture

FEATURED PROJECTS

E-Commerce REST API (Personal Project) | *Python, FastAPI, MongoDB*

- Designed and built a RESTful API for an e-commerce platform using Python and FastAPI, covering products, users, and orders.
- Modeled and integrated MongoDB as the application database for storing and querying product, user, and order data.
- Implemented CRUD endpoints, request validation, and structured API responses following REST conventions.
- Built as a self-directed learning project to develop backend/API development skills using Python.

Winnabit | *React Native, Expo, TypeScript*

- Developed a production-ready cross-platform mobile application using React Native, Expo, and TypeScript.
- Integrated REST APIs, Firebase services, push notifications, and secure user authentication.
- Implemented Android Health Connect integration for step tracking and fitness-related features.
- Designed notification handling for foreground, background, and terminated application states.
- Configured GitHub Actions CI/CD workflows and Expo EAS Build & Submit for automated Android and iOS deployments.
- Optimized application performance, fixed platform-specific Android and iOS issues, and improved overall user experience.

ProfileNest | *React Native*

- Developed a digital business networking application published on the Apple App Store.
- Built responsive user interfaces and integrated REST APIs for profile management.
- Implemented Firebase services and optimized application performance for production use.

Cal AI | *React Native, OpenAI*

- Developed an AI-powered calorie tracking application using React Native.
- Integrated OpenAI APIs to provide intelligent nutrition-related features.
- Built reusable UI components and optimized application responsiveness.

LoanBuddy (Loan Calculator) | *React Native*

- Developed a mobile loan calculator with intuitive financial calculation features.
- Designed responsive user interfaces and implemented reusable components.
- Published production-ready builds for mobile platforms.

AI ChatBot | *React Native, OpenAI*

- Developed an AI chatbot application powered by OpenAI APIs.
- Designed conversational user interfaces and integrated real-time AI responses.
- Focused on responsive UI, performance optimization, and smooth user experience.

ADDITIONAL PROJECTS

Transcript24 | *Next.js, Node.js, OpenAI*

- Developed an AI-powered web application that converts video and audio into text transcripts using OpenAI APIs.
- Built the frontend using Next.js and integrated backend APIs for transcript generation.

PNG to PDF Converter | *Next.js, Node.js*

- Developed a web application for converting PNG images into PDF documents.
- Built the frontend using Next.js and backend services using Node.js and Express.js.

PUBLISHED MOBILE APPLICATIONS

- ProfileNest
- Next African Generation

OTHER REACT NATIVE APPLICATIONS

- Trainify Inc
- Digital Quran
- Digital Tasbeeh
- Taly App
- Notigift App
- Note Genie
- Halaly App
- Mesob Store
- Kindraise

ACADEMIC PROJECT

- DAF: Replica for Stuttering (iOS) – Final Year Project developed during BS Information Technology.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

PMAS Arid Agriculture University, Rawalpindi

- 2016 – 2020
- CGPA: 3.46 / 4.00 (86.50%) – First Division
- Final Year Project: DAF: Replica for Stuttering (iOS)

CERTIFICATIONS

- JavaScript Basics – HackerRank (August 2023)
- Basic Computer Course – Al Noor Computer Academy (March 2011 – June 2011)

LANGUAGES

- English – Professional Working Proficiency
- Urdu – Native
- Punjabi – Native
